

XTREME KUT 735

Swiss Style Screw Machine Oil

Performance Benefits

- High stock removal in demanding operations provided by very good boundary and EP lubrication
- Superior tool life
- Very good oxidative stability
- Low foaming performance
- Low Viscosity provides good cooling and lubricant penetration at the point of cut
- Safe to use on all metals

XTREME KUT 735 is a medium to heavy-duty straight oil designed for Swiss style screw machines and other applications that require dual or tri-purpose oils. This straight oil is formulated with very good polar lubrication and does contain extreme pressure additives to provide superior tool life. **XTREME KUT 735** is designed to prevent chip welding and metal pick-up on the tool and grinding wheel. This fluid is used where fine finishes and critical part tolerance is required. **XTREME KUT 735** is formulated with anti-mist, anti-foam and anti-oxidation additives for clean, trouble free performance.

Operations

CNC Swiss style turning	CNC Machining	High speed turning
Tapping	Threading	Gundrilling

Typical Characteristics

Appearance.....	Clear, Yellow
Copper Corrosion ASTM 130.....	1B
Density	7.44 lbs./gal
Flash Point, COC.....	365°F (185°C)
Viscosity, SUS @ 100°F (38°C).....	100
Fat.....	Yes
Chlorine.....	Yes
Sulfur.....	Yes
Active Sulfur.....	No

Packaging

XTREME KUT 735 is packaged in 310-gallon, one-way tote tanks and 55-gallon, non-returnable steel drums. Bulk and 5-gallon pails are also available.
